

EMI Calculator

A clean and responsive **EMI (Equated Monthly Installment) Calculator** built with HTML, CSS, and JavaScript. Enter your loan details and instantly calculate your monthly EMI.

Live Preview

Open `emi_calculator.html` in any browser to run the app locally.

Features

-  Input fields for **Loan Amount**, **Interest Rate**, and **Tenure (Months)**
 -  Instant EMI calculation on button click
 -  Input validation — alerts if any field is left empty
 -  Clean, modern UI with smooth hover effects
 -  Responsive design centered layout
-

EMI Formula Used

$$EMI = P \times r \times (1 + r)^n / ((1 + r)^n - 1)$$

Where:

- **P** = Principal Loan Amount
 - **r** = Monthly Interest Rate (Annual Rate ÷ 1200)
 - **n** = Number of Monthly Installments (Tenure)
-

Project Structure

```
EMI_Calculator/  
|  
├── emi_calculator.html    # Main HTML structure  
├── emi_calculator.css     # Styling and layout  
├── emi_calculator.js      # EMI logic and DOM manipulation  
└── README.md               # Project documentation
```

How to Use

1. Clone the repository:

```
bash
```

```
git clone https://github.com/deepakduda492-hash/EMI_Calculator.git
```

2. Navigate to the project folder:

```
bash
```

```
cd EMI_Calculator
```

3. Open `emi_calculator.html` in your browser — no server needed!

Technologies Used

Technology	Purpose
HTML5	Page structure and input forms
CSS3	Styling, gradients, and hover effects
JavaScript (ES6)	EMI formula logic and DOM interaction
